

6 Reasons why Reusable Cloth Face Masks are better and more cost effective than disposable masks!

1 Disposable Masks cost over \$300 per employee a Year

SAVE MONEY

- Disposable masks cost .50 cents on average
- Average person uses 2 masks per day
- You're throwing away money in the trash

Purchasing a Bayside Mask will start saving you money in less than a week

2 WASHABLE & REUSABLE

- Super easy to clean
- To clean and disinfect your Bayside Mask just put it in boiling water for 5-6 minutes and let it hang dry
- Can also be washed in your washing machine and dryer!

3 MADE IN USA

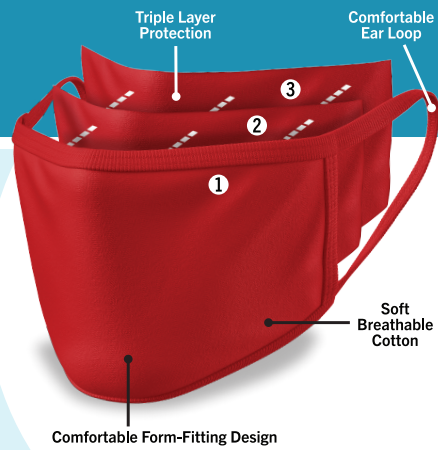

KNOW EXACTLY WHERE YOUR MASK IS MADE

- Being Made in Southern California means you are getting the highest quality mask while following the strictest guidelines to protect the environment
- We recycle at each step of the production process- from the US grown cotton to recycling water at our dye house to recycling all excess materials

4 PROTECT YOURSELF & OTHERS AROUND YOU

- According to the CDC wearing a cloth face mask helps prevent spread of illness from people who may not know they are ill
- Wearing a cloth mask also prevents you from touching your face or nose after you have touched something
- With 3 layers of fabric you have piece of mind that you are protected!
- You also have peace of mind knowing that surgical masks are getting in the hands of medical employees and first responders who need them the most

5 18 COLORS AVAILABLE

STYLE 1900

- With 18 colors available you can wear your team colors, express your own style
- Make a statement, and look your best while staying safe!

6 KEEPING AND CREATING JOBS HERE IN AMERICA SINCE 1995

- We are the Largest Vertical Apparel Manufacturer in the USA
- Instead of shutting down and laying off employees we worked diligently to become an essential business and later becoming a critical company

- We pivoted our apparel manufacturing to making face masks
- We have been creating jobs in America since 1995, and in the last 60 days alone we have hired over 95 employees
